Summary of Legislation: This bill allows an excessive levy appeal by a township to pay the costs of providing emergency medical services by paramedics in the township.

Effective Date: July 1, 2005.

Explanation of State Expenditures: The Local Government Control Board and the Department of Local Government Finance may incur some additional expenses in hearing and processing the appeals. The additional expense could probably be absorbed given the current budget.

Property Tax Replacement Credit payments would not be affected by this proposal

Explanation of State Revenues:

Explanation of Local Expenditures:

Explanation of Local Revenues: Under this proposal, a township may appeal to the state's Local Government Tax Control Board for an excessive levy to pay the costs of paramedic services. The Control Board would set the amount of the excessive levy, if any. Excessive levies, if approved, would increase the township's total property tax levy and tax rate. The amount of the increase would depend on the request by the township and the response by the Control Board. Townships would be able to seek excessive levies for township paramedic services beginning with property taxes paid in CY 2006.

State Agencies Affected: Local Government Tax Control Board, Department of Local Government Finance.

Local Agencies Affected: Townships.
